DIRECTORS' REPORT

The Directors hereby submit their report together with the audited financial statements of the Group and Company for the financial year ended 31 December 2014.

PRINCIPAL ACTIVITIES

The principal activity of the Company is that of providing long haul air transportation services. The principal activities of the subsidiaries are described in Note 16 to the financial statements. There was no significant change in the nature of these activities during the financial year.

FINANCIAL RESULTS

	<u>Group</u> RM'000	<u>Company</u> RM'000
Net loss for the financial year	<u>519,443</u>	<u>484,003</u>

DIVIDENDS

No dividend has been paid or declared by the Company since the end of the previous financial year.

The Directors do not recommend the payment of any dividend for the financial year ended 31 December 2014.

RESERVES AND PROVISIONS

All material transfers to or from reserves and provisions during the financial year are shown in the financial statements.

EMPLOYEES' SHARE OPTION SCHEME

The Company had implemented an Employees' Share Option Scheme ("ESOS") which entails the issuance of up to ten percent (10%) of the issued and paid-up share capital of the Company at any one time pursuant to the exercise of options to be granted under the ESOS, to full-time eligible employees of the Group. The tenure of the ESOS shall be five (5) years with an option to extend for a further five (5) years, subject to a maximum duration of ten (10) years. The ESOS is governed by the by-laws which were approved by the shareholders on 12 October 2012.

On 1 July 2013, the Company granted 9,550,000 ESOS Options to its eligible employees at the exercise price of RM1.25 per option ("Initial Grant"). The vesting of the ESOS Options under the Initial Grant shall be subject to the terms and conditions of the By-Laws.

Details of the ESOS are set out in Note 26 to the financial statements.

DIRECTORS' REPORT (CONTINUED)

DIRECTORS

The Directors who have held office during the period since the date of the last report are as follows:

Tan Sri Rafidah Aziz
Datuk Kamarudin Bin Meranun
Tan Sri Dr. Anthony Francis Fernandes
Dato' Seri Kalimullah Bin Masheerul Hassan
Lim Kian Onn
Dato' Fam Lee Ee
Tan Sri Asmat Bin Kamaludin
Dato' Yusli Bin Mohamed Yusoff
Kiyotaka Tanaka

(Ceased as Alternate Director to
Kiyoshi Fushitani on 12 June 2014;
Appointed on 12 June 2014)
(Resigned on 12 June 2014)
(Retired on 5 June 2014)

Kiyoshi Fushitani
Asher Noor

DIRECTORS' BENEFITS

During and at the end of the financial year, no arrangements subsisted to which the Company is a party, being arrangements with the object or objects of enabling Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit by reason of a contract made by the Company or a related corporation with the Director or with a firm of which he is a member, or with a company in which he has a substantial financial interest, except as disclosed in Note 5 and Note 28 to the financial statements.

DIRECTORS' REPORT (CONTINUED)

STATUTORY INFORMATION ON THE FINANCIAL STATEMENTS

Before the financial statements were made out, the Directors took reasonable steps:

- (a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- (b) to ensure that any current assets, other than debts, which were unlikely to realise in the ordinary course of business their values as shown in the accounting records of the Group and Company had been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances:

- (a) which would render the amounts written off for bad debts or the amount of the allowance for doubtful debts in the financial statements of the Group and Company inadequate to any substantial extent; or
- (b) which would render the values attributed to current assets in the financial statements of the Group and Company misleading; or
- (c) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and Company misleading or inappropriate.

No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Group or Company to meet their obligations as and when they fall due.

At the date of this report, there does not exist:

- (a) any charge on the assets of the Group and Company which has arisen since the end of the financial year which secures the liability of any other person; or
- (b) any contingent liability of the Group and Company which has arisen since the end of the financial year.

AIRASIA X BERHAD
(Incorporated in Malaysia)

DIRECTORS' REPORT (CONTINUED)

STATUTORY INFORMATION ON THE FINANCIAL STATEMENTS (CONTINUED)

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements which would render any amount stated in the financial statements misleading.

In the opinion of the Directors:

- (a) except as disclosed in the financial statements, the results of the Group's and Company's operations during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and
- (b) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and Company for the financial year in which this report is made.

AUDITORS

The auditors, PricewaterhouseCoopers, have expressed their willingness to continue in office.

Signed on behalf of the Board of Directors in accordance with a resolution dated 29 APR 2015

TAN SRI RAFIDAH AZIZ
DIRECTOR

DATUK KAMARUDIN BIN MERANUN
DIRECTOR

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014

1 GENERAL INFORMATION

The principal activity of the Company is that of providing long haul air transportation services. The principal activities of the subsidiary companies are described in Note 16 to the financial statements.

There was no significant change in the nature of these activities during the financial year.

The address of the registered office of the Company is as follows:

B-13-15, Level 13
Menara Prima Tower B
Jalan PJU1/39, Dataran Prima
47301 Petaling Jaya
Selangor Darul Ehsan

The address of the principal place of business of the Group and Company is as follows:

Mezzanine Floor, LCCT
Jalan KLIA S3
Southern Support Zone KLIA
64000 Sepang
Selangor Darul Ehsan

The financial statements have been approved for issue in accordance with a resolution of the Board of Directors on 29 April 2015.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unless otherwise stated, the following accounting policies have been applied consistently in dealing with items that are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements of the Group and Company have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

The financial statements have been prepared under the historical cost convention except as disclosed in this summary of significant accounting policies.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires Directors to exercise their judgment in the process of applying the Group's and Company's accounting policies. Although these estimates and judgment are based on the Directors' best knowledge of current events and actions, actual results may differ. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3 to the financial statements.

734161	K

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

Whilst the Group and the Company incurred net loss of RM519,443,000 and RM484,003,000 respectively during the financial year ended 31 December 2014 and as of that date, the Group's and the Company's current liabilities exceeded their current assets by RM1,462,163,000 and RM1,464,271,000 respectively, the Directors are of the view that no material uncertainty related to these conditions exists that may cast significant doubt on the Group's or Company's ability to continue as a going concern. The Directors believe that the Group and the Company are able to realise their assets and discharge their liabilities in the normal course of business and that the financial position will be improved through future operating profits and cash flows.

On 27 January 2015, the Company had secured an additional term loan facility amounting to RM75 million for working capital purposes. In addition, as disclosed in Note 33 to the financial statements, on 30 January 2015, the Company announced the proposal to undertake a renounceable rights issue of new ordinary shares of RM0.15 each in AirAsia X Berhad together with free detachable warrants to raise gross proceeds of up to RM395 million ("Rights Issue with Warrants"). This corporate transaction was approved by the shareholders at the Extraordinary General Meeting held on 27 March 2015. Certain shareholders ("Undertaking Shareholders") have provided irrevocable and unconditional written undertakings to subscribe and/or procure the subscription in full of their respective entitlements under the Rights Issue with Warrants. In addition, the Company has also entered into an underwriting agreement with an underwriter to underwrite the remaining portion of the rights shares. Proceeds from the rights issue are expected to be available in the second quarter of 2015.

Based on the above, the Directors believe that it is appropriate to prepare the financial statements of the Group and the Company on a going concern basis.

(b) Standards, amendments to published standards and interpretations that are effective

The new accounting standards, amendments and improvements to published standards and interpretations that are effective for the Group and Company's financial year beginning on or after 1 January 2014 are as follows:

- Amendments to MFRS 132 'Offsetting Financial Assets and Financial Liabilities'
- Amendments to MFRS 136 'Recoverable Amount Disclosures for Non-Financial Assets'
- Amendments to MFRS 139 'Novation of Derivatives and Continuation of Hedge Accounting'
- Amendments to MFRS 10, MFRS 12 and MFRS 127 'Investment Entities'

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group but not yet effective

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2014. None of these is expected to have a significant effect on the consolidated financial statements of the Group, except the following set out below:

- Amendment to MFRS 11 'Joint arrangements' (effective from 1 January 2016) requires an investor to apply the principles of MFRS 3 'Business Combination' when it acquires an interest in a joint operation that constitutes a business. The amendments are applicable to both the acquisition of the initial interest in a joint operation and the acquisition of additional interest in the same joint operation. However, a previously held interest is not re-measured when the acquisition of an additional interest in the same joint operation results in retaining joint control.
- Amendments to MFRS 116 'Property, plant and equipment' and MFRS 138 'Intangible assets' (effective from 1 January 2016) clarify that the use of revenue-based methods to calculate the depreciation and amortisation of an item of property, plant and equipment and intangible are not appropriate. This is because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset.

The amendments to MFRS 138 also clarify that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. This presumption can be overcome only in the limited circumstances where the intangible asset is expressed as a measure of revenue or where it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated.

- Amendments to MFRS 10 and MFRS 128 regarding sale or contribution of assets between an investor and its associate or joint venture (effective from 1 January 2016) resolve a current inconsistency between MFRS 10 and MFRS 128. The accounting treatment depends on whether the non-monetary assets sold or contributed to an associate or joint venture constitute a 'business'. Full gain or loss shall be recognised by the investor where the non-monetary assets constitute a 'business'. If the assets do not meet the definition of a business, the gain or loss is recognised by the investor to the extent of the other investors' interests. The amendments will only apply when an investor sells or contributes assets to its associate or joint venture. They are not intended to address accounting for the sale or contribution of assets by an investor in a joint operation.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group but not yet effective (continued)

- MFRS 9 'Financial Instruments' (effective from 1 January 2018) will replace MFRS 139 "Financial Instruments: Recognition and Measurement". The complete version of MFRS 9 was issued in November 2014.

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 and establishes three primary measurement categories for financial assets: amortised cost, fair value through profit or loss and fair value through other comprehensive income ("OCI"). The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are always measured at fair value through profit or loss with an irrevocable option at inception to present changes in fair value in OCI (provided the instrument is not held for trading). A debt instrument is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest.

For liabilities, the standard retains most of the MFRS 139 requirements. These include amortised cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch.

There is now a new expected credit losses model on impairment for all financial assets that replaces the incurred loss impairment model used in MFRS 139. The expected credit losses model is forward-looking and eliminates the need for a trigger event to have occurred before credit losses are recognised.

- MFRS 15 'Revenue from contracts with customers' (effective from 1 January 2017) deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces MFRS 118 'Revenue' and MFRS 111 'Construction contracts' and related interpretations.

The Group and the Company are in the process of assessing the full impact of the above standards, amendments to published standards and interpretations on the financial statements of the Group and of the Company in the year of initial application.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Basis of consolidation

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with MFRS 139 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recognised as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the income statement.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated. Where necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Basis of consolidation (continued)

(ii) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investment in associates includes goodwill identified on acquisition.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in the income statement, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of profits equals the share of losses not recognised.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to 'share of results of associates' in the income statement.

Profits and losses resulting from upstream and downstream transactions between the Group and its associates are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Dilution gains and losses arising from investments in associates are recognised in profit or loss.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Basis of consolidation (continued)

(iii) Joint arrangements

A joint arrangement is an arrangement of which there is contractually agreed sharing of control by the Group with one or more parties, where decisions about the relevant activities relating to the joint arrangement require unanimous consent of the parties sharing control. The classification of a joint arrangement as a joint operation or a joint venture depends upon the rights and obligations of the parties to the arrangement. A joint venture is a joint arrangement whereby the joint venturers have rights to the net assets of the arrangement. A joint operation is a joint arrangement whereby the joint operators have rights to the assets and obligations for the liabilities, relating to the arrangement.

The Group's interest in a joint venture is accounted for in the financial statements using the equity method of accounting. Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses and movements in other comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures. If the joint venture subsequently reports profits, the Group resumes recognising its share of those profits only after its share of profits equals the share of losses not recognised. Where an entity loses joint control over a joint venture but retains significant influence, the Group does not re-measure its continued ownership interest at fair value.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Costs also include borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (refer to accounting policy Note 2(p) on borrowing costs).

Where significant parts of an item of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts in the carrying amount of the property, plant and equipment as a replacement when it is probable that future economic benefits associated with the parts will flow to the Group and the cost of the parts can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as expenses in profit or loss during the period in which they are incurred.

Significant parts of an item of property, plant and property are depreciated separately over their estimated useful lives in accordance with the principle in MFRS 116 "Property, Plant and Equipment". Depreciation is calculated using the straight-line method to write-off the cost of the assets to their residual values over their estimated useful lives.

The useful lives for this purpose are as follows:

Aircraft	
- engines and airframe excluding service potential	25 years
- service potential of engines and airframe	6 or 12 years
Aircraft spares	10 years
Aircraft fixtures and fittings	Useful life of aircraft or remaining lease term of aircraft, whichever is shorter
Motor vehicles	5 years
Office equipment, furniture and fittings	5 years

Service potential of 6 years represents the period over which the expected cost of the first major aircraft engine overhaul is depreciated. Subsequent to the engine overhaul, the actual cost incurred is capitalised and depreciated over the subsequent 6 years.

Certain elements of the cost of an airframe are attributed on acquisition to 6 years interval check or 12 years interval check, reflecting its maintenance conditions. This cost is amortised over the shorter of the period to the next scheduled heavy maintenance or the remaining life of the aircraft.

Assets not yet in operation are stated at cost and are not depreciated until the assets are ready for their intended use. Useful lives of assets are reviewed and adjusted if appropriate, at the balance sheet date.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Property, plant and equipment (continued)

Residual values, where applicable, are reviewed annually against prevailing market values at the balance sheet date for equivalent aged assets, and depreciation rates are adjusted accordingly on a prospective basis. For the current financial year ended 31 December 2014, the estimated residual value for aircraft airframes and engines is 10% of their cost (2013: 10% of their cost).

The costs of upgrades to leased assets are capitalised and amortised over the shorter of the expected useful life of the upgrades or the remaining life of the aircraft.

Deposits on aircraft purchase are included as part of the cost of the aircraft and are depreciated from the date that the aircraft is ready for its intended use.

At each balance sheet date, the Group and Company assess whether there is any indication of impairment. If such an indication exists, an analysis is performed to assess whether the carrying amount of the asset is fully recoverable. A write down is made if the carrying amount exceeds the recoverable amount. See accounting policy Note 2(g) on impairment of non-financial assets.

Gains and losses on disposals are determined by comparing proceeds with carrying amounts and are included in the income statements.

(f) Investments in subsidiaries, joint ventures and associates

In the Company's separate financial statements, investments in subsidiaries, joint ventures and associates are stated at cost less accumulated impairment losses. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount (see Note 2(g)).

On disposal of investments in subsidiaries, joint ventures and associates, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(g) Impairment of non-financial assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sell and value-in-use. For the purpose of assessing impairment, assets are grouped at the lowest level for which there are separately identifiable cash flows (CGUs). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal at each reporting date.

Any impairment loss is charged to profit or loss unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Impairment losses on goodwill are not reversed. In respect of other assets, any subsequent increase in recoverable amount is recognised in profit or loss unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus.

(h) Maintenance and overhaul

Owned aircraft

The accounting for the cost of major airframe and certain engine maintenance checks for own aircraft is described in the accounting policy for property, plant and equipment (see Note 2(e)).

Leased aircraft

Where the Group and Company have a commitment to maintain aircraft held under operating leases, a provision is made during the lease term for the rectification obligations contained within the lease agreements. The provisions are based on estimated future costs of major airframe, certain engine maintenance checks and one-off costs incurred at the end of the lease by making appropriate charges to the income statements calculated by reference to the number of hours or cycles operated during the financial year.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(i) Leases

A lease is an agreement whereby the lessor conveys to the lessee in return for a payment, or series of payments, the right to use an asset for an agreed period of time.

Finance leases

Leases of property, plant and equipment where the Group and Company assume substantially all the benefits and risks of ownership are classified as finance leases.

Finance leases are capitalised at the commencement dates of the respective leases at the lower of the fair value of the leased property and the present value of the minimum lease payments at the date of inception. Each lease payment is allocated between the liability and finance charges so as to achieve a periodic constant rate of interest on the balance outstanding. The corresponding rental obligations, net of finance charges, are included in payables. The interest element of the finance charge is charged to the income statements over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Property, plant and equipment acquired under finance lease contracts are depreciated over the estimated useful life of the asset, in accordance with the annual rates stated in Note 2(e) above. Where there is no reasonable certainty that the ownership will be transferred to the Group and Company, the asset is depreciated over the shorter of the lease term and its useful life.

Operating leases

Leases of assets where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of incentives received from the lessor) are charged to the income statements on a straight-line basis over the lease period.

Assets leased out by the Group and Company under operating leases are included in property, plant and equipment in the balance sheets. They are depreciated over their expected useful lives on a basis consistent with similar owned property, plant and equipment. Rental income (net of any incentives given to lessees) is recognised on a straight line basis over the lease term.

(i) Leases (continued)

Sale and leaseback transactions

When a sale and leaseback results in a finance lease, any gain on the sale is deferred and recognised as income over the lease term. Any loss on the sale is immediately recognised as an impairment loss when the sale occurs.

If the leaseback is classified as an operating lease, then any gain is recognised immediately if the sale and leaseback terms are demonstrably at fair value. Otherwise, the sale and leaseback are accounted for as follows:

If the sale price is below fair value then the gain or loss is recognised immediately other than to the extent that a loss is compensated for by future rentals at below-market price, then the loss is deferred and amortised over the period that the asset is expected to be used.

If the sale price is above fair value, then any gain is deferred and amortised over the useful life of the asset.

If the fair value of the asset is less than the carrying amount of the asset at the date of the transaction, then that difference is recognised immediately as a loss on the sale.

(j) Inventories

Inventories comprising consumables used internally for repairs and maintenance and in-flight merchandise, are stated at the lower of cost and net realisable value.

Cost is determined on the weighted average basis, and comprises the purchase price and incidentals incurred in bringing the inventories to their present location and condition.

Net realisable value represents the estimated selling price in the ordinary course of business, less all estimated costs to completion and applicable variable selling expenses. In arriving at net realisable value, due allowance is made for all damaged, obsolete and slow-moving items.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) Derivative financial instruments and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value.

The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and the nature of the item being hedged. Derivatives that do not qualify for hedge accounting are classified as held for trading and accounted for in accordance with the accounting policy set out in Note 2(v). The Group designates certain derivatives as hedges of a particular risk associated with a recognised asset or liability or a highly probable forecast transaction (cash flow hedge).

The Group and Company document at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Group and Company also document their assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows of hedged items.

The fair values of various derivative instruments used for hedging purposes are disclosed in Note 19 to the financial statements. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining hedged item is more than 12 months, and as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in the income statements.

Amounts accumulated in equity are reclassified to the income statements in the periods when the hedged item affects profit or loss (for example, when the forecast sale that is hedged takes place). The gain or loss relating to the effective portion of interest rate swaps hedging variable rate borrowings is recognised in the income statements and presented separately after net operating profit.

When the forecast transaction that is hedged results in the recognition of a non-financial asset (for example, inventory or property, plant and equipment), the gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the cost of the asset. The deferred amounts are ultimately recognised in the cost of goods sold in the case of inventory or in depreciation in the case of property, plant and equipment.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement within 'other gains/(losses) – net'.

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****(l) Trade receivables**

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. Otherwise, they are presented as non-current assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment.

(m) Cash and cash equivalents

For the purpose of the statements of cash flows, cash and cash equivalents comprise cash on hand, bank balances, demand deposits, bank overdrafts and other short-term, highly liquid investments with original maturities of three months and net of bank overdrafts. Deposits held as pledged securities for term loans granted are not included as cash and cash equivalents.

(n) Provision

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount can be made. Provisions are not recognised for future operating losses.

(o) Share capital**(i) Classification**

Ordinary shares with discretionary dividends are classified as equity. Other shares are classified as equity and/or liability according to the economic substance of the particular instrument.

(ii) Share issue costs

Incremental external costs directly attributable to the issuance of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(iii) Dividends to shareholders of the Company

Dividends are recognised as a liability in the period in which they are declared. A dividend declared after the end of the reporting period, but before the financial statements are authorised for issue, is not recognised as a liability at the end of the reporting period.

AIRASIA X BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****(p) Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between initial recognised amount and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Interest, dividends, losses and gains relating to a financial instrument, or a component part, classified as a liability is reported within finance cost in the income statements.

Borrowings are classified as current liabilities unless the Group and Company have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(q) Current and deferred income taxes

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group's subsidiaries and associates operate and generate taxable income.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. This liability is measured using the single best estimate of the most likely outcome.

Deferred tax is recognised, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses or unused tax credits (including tax incentives) can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally the Group is unable to control the reversal of the temporary difference for associates. Only where there is an agreement in place that gives the Group the ability to control the reversal of the temporary differences shall not be recognised.

Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same tax authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(r) Employee benefits

(i) Short term employee benefits

Wages, salaries, paid annual leave and sick leave, bonuses and non-monetary benefits are accrued in the financial year in which the associated services are rendered by the employees of the Group and Company.

(ii) Defined contribution plan

The Group's and Company's contributions to the Employees' Provident Fund are charged to the income statement in the period to which they relate. Once the contributions have been paid, the Group and Company have no further payment obligations. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(s) Revenue recognition

Revenue from scheduled passenger flights is recognised upon the rendering of transportation services net of discounts. The revenue of seats sold for which services have not been rendered is included in current liabilities as sales in advance.

Revenue from charter flights is recognised upon the rendering of transportation services.

Fuel surcharge, insurance surcharge, administrative fees, seat fees, change fees, convenience fees, excess baggage and baggage handling fees are recognised upon the completion of services rendered net of discounts. Freight and other related revenue are recognised upon the completion of services rendered net of discounts.

Management fees, incentives and commission income are recognised on an accrual basis.

Revenue from aircraft operating lease is recorded on a straight line basis over the term of the lease.

Interest income is recognised using the effective interest method.

The Group participates in a loyalty programme where customers accumulate points for purchases made which entitle them to discounts on future purchases. Award points are recognised as a cost of sale at the time of issue while revenue from the award points is recognised when the points are redeemed. The amount of revenue is based on the number of points redeemed and the redemption value of each point. Award points expire 36 months after the initial sale.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(t) Foreign currencies

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.

Foreign exchange gains and losses arising from operations are included in arriving at the operating profit. Foreign exchange gains and losses arising from borrowings (after effects of effective hedges) and amounts due from associates are separately disclosed after net operating profit.

(iii) Group companies

The results and financial position of all entities within the Group (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i)** assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (ii)** income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (iii)** all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken to shareholders' equity. When a foreign operation is disposed of or sold, such exchange differences that were recorded in equity are recognised in the income statements as part of the gain or loss on disposal.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Contingent liabilities

The Group and Company do not recognise a contingent liability but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by uncertain future events beyond the control of the Group and Company, or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare circumstance where there is a liability that cannot be recognised because it cannot be measured reliably.

The Group and Company recognise separately the contingent liabilities of the acquirees as part of allocating the cost of a business combination where their fair values can be measured reliably. Where the fair values cannot be measured reliably, the resulting effect will be reflected in the goodwill arising from the acquisitions.

Subsequent to the initial recognition, the Group and Company measure the contingent liabilities that are recognised separately at the date of acquisition at the higher of the amount that would be recognised in accordance with the provisions of MFRS 137 "Provisions, Contingent Liabilities and Contingent Assets" and the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with MFRS 118 "Revenue".

(v) Financial assets

(i) Classification

The Group classifies its financial assets in the following categories: at fair value through profit or loss and loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification at initial recognition.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term. Derivatives are also categorised as held for trading unless they are designated as hedges (see Note 2(k)). Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's and Company's loans and receivables comprise 'trade and other receivables', 'amounts due from related parties', 'amount due from an associate' and 'deposits, cash and bank balances' in the balance sheet.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(v) Financial assets (continued)

(ii) Recognition and initial measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Group commits to purchase or sell the asset.

Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in profit or loss.

(iii) Subsequent measurement – gains and losses

Financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Changes in the fair values of financial assets at fair value through profit or loss, including the effects of currency translation, interest and dividend income are recognised in the income statement in the period in which the changes arise.

(iv) Subsequent measurement – Impairment of financial assets

Assets carried at amortised cost

The Group assesses at the end of the reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(v) Financial assets (continued)

(iv) Subsequent measurement – Impairment of financial assets (continued)

The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- Significant financial difficulty of the issuer or obligor;
- A breach of contract, such as a default or delinquency in interest or principal payments;
- The Group, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
- Disappearance of an active market for that financial asset because of financial difficulties; or
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
 - (i) adverse changes in the payment status of borrowers in the portfolio; and
 - (ii) national or local economic conditions that correlate with defaults on the assets in the portfolio.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The asset's carrying amount is reduced and the amount of the loss is recognised in the income statement. If 'loans and receivables' have a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the income statement.

When an asset is uncollectible, it is written off against the related allowance account. Such assets are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(v) Financial assets (continued)

(v) De-recognition

Financial assets are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

(w) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is presented in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(x) Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

(y) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer that makes strategic decisions.

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments are continually evaluated by the Directors and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group and Company make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have a material impact to the Group's and Company's results and financial position are tested for sensitivity to changes in the underlying parameters.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below:

(i) Estimated useful lives and residual values of aircraft frames and engines

The Group reviews annually the estimated useful lives and residual values of aircraft frames and engines based on factors such as business plan and strategies, expected level of usage, future technological developments and market prices.

Future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned above. A reduction of 5% in the residual values of aircraft airframes and engines as disclosed in Note 2(e), would increase the recorded depreciation for the financial year ended 31 December 2014 by RM3,346,000 (2013: RM3,794,000) and decrease the carrying amount of property, plant and equipment as at 31 December 2014 by RM8,548,000 (2013: RM6,604,000).

(ii) Deferred tax assets

Deferred tax assets are mainly originating from unutilised tax incentives, unabsorbed capital allowances and tax losses carry forward which have no expiry dates. The deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised. Estimating the future taxable profits involves significant assumptions, especially in respect of regulatory approvals for prospective routes, aircraft delivery, fares, load factors, fuel price, maintenance cost and currency movements. These assumptions have been built based on past performance and adjusted for non-recurring circumstances and a reasonable growth rate. Based on these projections, management believes that the current non-time restricted temporary differences will be utilised and has recognised the deferred tax assets as at end of the reporting date.

(iii) Impairment of investments in associate and joint venture

The investments in associate and joint venture are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Significant judgement is required in the estimation of the present value of future cash flows generated by the associate and joint venture, which involves uncertainties and are significantly affected by assumptions used and judgement made regarding estimates of future cash flows and discount rates. Changes in assumptions can significantly affect the results of the Group's test for impairment of investments in associate and joint venture.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONTINUED)

(iv) Sales and leaseback

Judgement is required in the initial classification of leases as either operating leases or finance leases and, in respect of finance leases, determining the appropriate discount rate implicit in the lease to discount minimum lease payments. The Company had accounted for the aircraft under the sale and leaseback arrangements as “operating lease” as the Company operates, but does not own, these aircraft. The Company has no right or obligation to acquire these aircraft at the end of the relevant lease terms. The present value of the minimum lease payments determined at the inception of the lease was not substantially all of the aircraft’s fair value and the lease term under the arrangement is not a major part of the economic life of the aircraft.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

11 LOSS PER SHARE

Basic loss per share

Basic loss per share is calculated by dividing the net loss for the financial year by the weighted average number of ordinary/preference shares in issue during the financial year.

	<u>2014</u>	<u>Group 2013</u>
Net loss for the financial year (RM'000)	(519,443)	(88,267)
Weighted average number of ordinary/preference shares in issue ('000)	2,370,370	1,309,305
Loss per share (sen)	<u>(21.9)</u>	<u>(6.7)</u>

Diluted loss per share

The diluted loss per share of the Group is similar to the basic loss per share as the options over unissued ordinary shares granted pursuant to the ESOS at the end of the financial year have an anti-dilutive effect. The exercise price of the ESOS of RM1.25 per option is above the average market value of the Company's shares during the financial year.

12 PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Included in property, plant and equipment of the Group and Company are aircraft pledged as security for borrowings (Note 25) with a net book value of RM1,682 million (2013: RM2,066 million).

The beneficial ownership and operational control of certain aircraft pledged as security for borrowings rests with the Company when the aircraft is delivered to the Company.

Where the legal title to the aircraft is held by the financiers during delivery, the legal title will be transferred to the Company only upon settlement of the respective facilities.

The net cash outflow for the acquisition of property, plant and equipment during the financial year is as follows:

	<u>Group and Company</u>	
	<u>2014</u>	<u>2013</u>
	RM'000	RM'000

Deferred tax liability (after offsetting)	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

Deferred tax assets are mainly originating from unutilised tax incentives, unabsorbed capital allowances and tax losses carry forward which have no expiry dates. As disclosed in Note 3 to the financial statements in respect of critical accounting estimates and judgments, the deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilised. Estimating the future taxable profits involves significant assumptions, especially in respect of regulatory approvals for prospective routes, aircraft delivery, fares, load factors, fuel price, maintenance cost and currency movements. These assumptions have been built based on past performance and adjusted for non-recurring circumstances and a reasonable growth rate. Based on these projections, management believes that the current non-time restricted temporary differences will be utilised and has recognised the deferred tax assets as at end of the reporting date.

The Ministry of Finance has granted approval to the Company under Section 127 of Income Tax Act, 1967 for income tax exemption in the form of an Investment Allowance ("IA") of 50% on qualifying expenditure incurred within a period of 5 years commencing 1 September 2014 to 31 August 2019, to be set off against 50% of the statutory income for each year of assessment. Any unutilised allowance can be carried forward to subsequent years until fully utilised. The amount of income exempted from tax is credited to a tax-exempt account from which tax-exempt dividends can be declared.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

14 DEPOSITS ON AIRCRAFT PURCHASES

The deposits on aircraft purchases are denominated in US Dollar and are in respect of pre-delivery payments on aircraft purchases. Pre-delivery payments constitute instalments made in respect of the price of the aircraft and are deducted from the final price on delivery.

The deposits as at 31 December 2014 are in respect of aircraft purchases which will be delivered from January 2015 to May 2025.

During the financial year ended 31 December 2014, the Group and Company capitalised borrowing costs amounting to RM10,054,000 (2013: RM10,460,000) on qualifying assets. Borrowing costs were capitalised at the rate of 4.90% (2013: 5.48%) per annum.

15 OTHER DEPOSITS AND PREPAYMENTS

Other deposits and prepayments include prepayments for maintenance of aircraft and deposits paid to lessors for leased aircraft. These prepayments and deposits are denominated in US Dollar.

19 DERIVATIVE FINANCIAL INSTRUMENTS

	<u>2014</u>		<u>Group and Company</u>	
	<u>Assets</u>	<u>Liabilities</u>	<u>Assets</u>	<u>Liabilities</u>
	RM'000	RM'000	RM'000	RM'000
<u>Non-current</u>				
Forward foreign exchange contracts – cash flow hedges	-	-	60,388	-
<u>Current</u>				
Commodity derivatives – held for trading	-	(102,993)	5,541	-

The full fair value of a hedging derivative is classified as a non-current asset if the remaining maturity of the hedge item is more than 12 months and, as a current asset, if the maturity of the hedged item is less than 12 months. Derivatives held for trading are those which do not qualify for hedge accounting.

(i) Forward foreign exchange contracts

The notional principal amounts of the outstanding forward foreign exchange contracts at 31 December 2014 were nil (2013: RM741.1million).

During the financial year 2014, the Group has terminated all cross currency interest rate swaps ("CCIRS"). The hedging instruments are derecognised from balance sheet and any cumulative gain or loss existing in equity at that time is reclassified to income statement.

(ii) Fuel contracts

The outstanding number of barrels of Singapore Jet Kerosene derivative contracts at 31 December 2014 was 1,957,597 barrels (2013: 187,778 barrels). The Group entered into Singapore Jet Kerosene fixed swap contracts with AirAsia Berhad during the financial year ended 31 December 2014, where the contracts are classified as derivatives held for trading.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

25 BORROWINGS (CONTINUED)

The carrying amounts and fair values of the fixed rate non-current borrowings are as follows:

	Group and Company			
	2014		2013	
	Carrying amount	Fair value	Carrying amount	Fair value
	RM'000	RM'000	RM'000	RM'000
Term loans	1,066,051	1,006,804	1,358,298	1,320,583
Hire purchase	49	53	66	70
	<u>1,066,100</u>	<u>1,006,857</u>	<u>1,358,364</u>	<u>1,320,653</u>

The fair values of borrowings classified as current liabilities, equal their carrying amounts, as the impact of discounting is not significant.

The fair values of the non-current fixed rate borrowings are based on cash flows discounted using borrowing rates that are reflective of the Group and Company's credit risk at the balance sheet date, at 2.80% to 4.89% (2013: 2.80% to 3.98%) per annum. The fair values of non-current borrowings are within level 2 of the fair value hierarchy.

Total borrowings include secured liabilities of RM1.5 billion (2013: RM2.0 billion).

Revolving credit facilities

The revolving credit facility of RM276,026,000 as at 31 December 2014 (2013: RM400,871,000) is to finance pre-delivery payments ("PDPs") in respect of the Group's and Company's firm order of Airbus A330-300 aircraft, with an option to acquire additional Airbus A330-300 aircraft. The facility becomes repayable upon delivery of the relevant aircraft and carries interest ranging from 3.2% to 3.25% (2013: 3.2% to 3.25%) per annum above the bank's USD cost of funds.

The revolving credit facility of RM40,000,000 as at 31 December 2014 (2013: RM40,000,000) is to finance the Group's and Company's corporate working capital requirements. The tenure of revolving credit facility is up to 5 years. This facility carries an interest at cost of funds plus 3% (2013: 3%) per annum.

Term loans

The term loans are for the purchase of new Airbus A330-300 aircraft. The repayment of the term loans is on a quarterly basis over 10 to 12 years, with equal principal instalments, at fixed interest rates of between 2.82% to 5.45% (2013: 2.82% and 7.03%) per annum. The term loans are secured by the following:

- Assignment of rights under contract with Airbus over each aircraft;
- Assignment of insurance of each aircraft; and
- Assignment of airframe and engine warranties of each aircraft.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

26 SHARE CAPITAL (CONTINUED)

On 10 May 2013, all the outstanding 42,666,667 Redeemable Convertible Preference Shares ("RCPS") of RM1 each in the Company was converted on a one-to-one basis, into 42,666,667 new ordinary shares of RM1 each in the Company, without consideration. On 13 May 2013, the Company cancelled its authorised share capital for RCPS of RM1 each, amounting to RM50,000,000.

In the previous financial year, the Company implemented the following transactions as part of an initial public offering ("IPO") exercise:

- (i) On 13 May 2013, the Company subdivided all of its existing 266,666,667 ordinary shares of RM1 each into 1,777,777,787 ordinary shares of RM0.15 each, by way of every three (3) ordinary shares of RM1 each into twenty (20) ordinary shares of RM0.15 each in the Company. On that same date, the Company increased its authorised share capital from RM270,000,000 to RM500,000,000, comprising 3,333,333,333 shares of RM0.15 each by the creation of 1,533,333,333 ordinary shares of RM0.15 each;
- (ii) On 10 June 2013, the Company issued a Prospectus in conjunction with an IPO of up to 790,123,500 ordinary shares of RM0.15 each in the Company, comprising an offer for sale of up to 197,530,900 existing ordinary shares of RM0.15 each and a public issue of 592,592,600 new ordinary shares of RM0.15 each to retail and institutional investors at a retail price of RM1.25 per share;
- (iii) In conjunction with the IPO, the Company implemented an Employee Share Option Scheme ("ESOS") to recognise the contribution of the Eligible Employees of up to 9,550,000 ESOS new ordinary shares of RM0.15 each, to be issued and awarded upon the terms and conditions of the By-Laws of the ESOS.

The entire enlarged issued and paid up ordinary share capital of RM355,555,558 comprising 2,370,370,387 ordinary shares of RM0.15 each were listed and quoted on the Official List of the Main Market of Bursa Malaysia Securities Berhad on 10 July 2013.

EMPLOYEE SHARE OPTION SCHEME ("ESOS")

The Company had implemented an ESOS which entails the issuance of up to ten percent (10%) of the issued and paid-up share capital of the Company at any one time pursuant to the exercise of options to be granted under the ESOS, to full-time eligible employees of the Group ("ESOS Options"). The tenure of the ESOS shall be five (5) years with an option to extend for a further five (5) years, subject to a maximum duration of ten (10) years. The ESOS is governed by the By-Laws which were approved by the shareholders on 12 October 2012.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

26 SHARE CAPITAL (CONTINUED)

EMPLOYEE SHARE OPTION SCHEME (“ESOS”) (CONTINUED)

The main features of the ESOS are as follows:

- (a) The maximum number of ordinary shares, which may be allotted pursuant to the exercise of options under the Scheme, shall not exceed ten per cent (10.0%) of the issued and paid-up share capital of the Company at any point in time during the duration of the Scheme.
- (b) The ESOS Committee has been appointed and duly authorised by the Board (and governed by the By-Laws) may, at its absolute discretion, offer such number of ESOS Options to the Eligible Employees during the subsistence of the ESOS, provided that such number of new Shares issued under the ESOS Options granted shall not exceed the maximum number permitted under the Listing Requirements, the By-Laws and any laws, regulations and guidelines issued by other relevant authorities.
- (c) An Eligible Employee who accepts an offer of ESOS Option must return, on or before the expiry date, the duly completed prescribed acceptance form accompanied by the payment of the sum of RM1.00 as a consideration for acceptance of that offer. If that offer is not accepted in such manner, the offer shall, upon the expiry date, automatically lapse and be null and void.
- (d) The subscription price, in respect of options granted prior to the date of listing in Bursa Malaysia, shall be RM1.25 per share.
- (e) The options granted are exercisable one year beginning from the date of grant.

The shares to be allotted and issued upon any valid exercise of options will, upon such allotment and issuance, rank pari passu in all respects with the existing and issued shares except that such shares so issued will not be entitled to any dividends, rights, allotments and/or any other distributions which may be declared, made or paid to shareholders prior to the date of allotment of such shares. The options shall not carry any right to vote at a general meeting of the Company.

Set out below are details of options over the ordinary shares of the Company granted under the ESOS:

<u>Grant date</u>	<u>Expiry date</u>	<u>Exercise price</u> RM/share	<u>At</u> <u>1.1.2014</u> <u>'000</u>	<u>Granted</u> <u>'000</u>	<u>Exercised</u> <u>'000</u>	<u>Forfeited</u> <u>'000</u>	<u>At</u> <u>31.12.2014</u> <u>'000</u>
1 July 2013	11 October 2017	1.25	9,550	-	-	(3,400)	6,150

The vested options are not exercised as at the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

27 COMMITMENTS

(a) Capital commitments not provided for in the financial statements are as follows:

	<u>Group and Company</u>	
	<u>2014</u>	<u>2013</u>
	RM'000	RM'000
Property, plant and equipment – approved and contracted for:		
- Not later than 1 year	3,640,862	3,798,706
- Later than 1 year and not later than 5 years	12,773,934	23,551,979
- Later than 5 years	58,548,565	12,168,353
	<u>74,963,361</u>	<u>39,519,038</u>

Included in capital commitments as at 31 December 2014 is the purchase of Airbus A330 and A350 aircraft over the next 12 years.

(b) Non-cancellable operating leases

The future minimum lease payments and sublease receipts under non-cancellable operating leases are as follows:

	<u>Group and Company</u>			
	<u>2014</u>		<u>2013</u>	
	<u>Future minimum lease payments</u>	<u>Future minimum sublease receipts</u>	<u>Future minimum lease payments</u>	<u>Future minimum sublease receipts</u>
	RM'000	RM'000	RM'000	RM'000
Not later than 1 year	665,326	111,688	325,015	-
Later than 1 year and not later than 5 years	3,314,688	446,751	1,119,568	-
Later than 5 years	4,977,571	420,343	1,139,078	-
	<u>8,957,585</u>	<u>978,782</u>	<u>2,583,661</u>	<u>-</u>

The group leases various aircraft and engines under non-cancellable operating lease agreements. The lease terms are between 10 to 12 years.

28 SIGNIFICANT RELATED PARTY TRANSACTIONS

In addition to related party disclosures mentioned elsewhere in the financial statements, set out below are other significant related party disclosures.

The related parties of the Company and their relationships at 31 December 2014 are as follows:

<u>Name of Companies</u>	<u>Relationship</u>
AirAsia X Services Pty Ltd	Subsidiary
AirAsia X NZ Ltd	Subsidiary
AirAsia X Mauritius One Ltd	Subsidiary
Thai AirAsia X Co Ltd ("TAAX")	Associate
PT Indonesia AirAsia Extra ("IAAX")	Joint Venture
AirAsia Berhad ("AAB")	Shareholder of the Company for which there is no control, significant influence or joint control, and common Directors and shareholders
CaterhamJet Global Ltd ("CJG")	Common Directors and shareholders
<u>Associates of AirAsia Berhad</u>	
- Thai AirAsia Co. Ltd ("TAA")	Common Directors and shareholders
- PT Indonesia AirAsia ("IAA")	Common Directors and shareholders
- AirAsia Japan Co. Ltd ("JAA")*	Common Directors and shareholders
- AirAsia Inc ("PAA")	Common Directors and shareholders
- Zest Airway Inc ("AAZ")	Common Directors and shareholders
<u>Joint ventures of AirAsia Berhad</u>	
- Asian Aviation Centre of Excellence Sdn Bhd	Common Directors and shareholders
- AAE Travel Pte Ltd ("AAE")	Common Directors and shareholders
- Tune Insurance Malaysia Berhad	Common Directors and shareholders
- Tune Box Sdn Bhd	Common Directors and shareholders
- Asian Contact Centres Sdn Bhd	Common Directors and shareholders

* JAA ceased as a related party of the Company/Group as at 28 June 2013.

All related party transactions were carried out on agreed terms and conditions.

Key management personnel are categorised as head or senior management officers of key operating divisions within the Group and Company. The key management compensation is disclosed in Note 28(g) below.

29 FINANCIAL RISK MANAGEMENT POLICIES

The Group's and Company's financial risk management policies seek to ensure that adequate financial resources are available for the development of the Group's and Company's businesses whilst managing their market risk (including fuel price risk, interest rate risk and foreign currency exchange risk), credit risk and liquidity and cash flow risk. The Group and Company operate within defined guidelines that are approved and reviewed periodically by the Board of Directors to minimise the effects of such volatility on their financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Group and the Company. The management team then establishes detailed policies such as risk identification and measurement, exposure limits and risk management strategies. Risk management policies and procedures are reviewed regularly to reflect changes in the market condition, and the Group's and Company's activities.

The Group and Company also seek to ensure that the financial resources that are available for the development of the Group's and Company's businesses are constantly monitored and managed vis-a-vis its ongoing exposure to fuel price, interest rate, foreign currency exchange, credit, liquidity and cash flow risks.

The policies in respect of the major areas of treasury activities are as follows:

(a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices such as foreign currency exchange rates, jet fuel prices and interest rates. The objective of market risk management is to manage and control market risk exposure within acceptable parameters while optimising the return on risk.

(i) Fuel price risk

The Group and Company are exposed to jet fuel price risk arising from the fluctuations in the prices of jet fuel. The Group and Company rely on a related party for certain treasury activities, including hedging of fuel price, which is contracted and managed by the related party. Any gain or loss arising from fuel hedging is recognised when the risk transfers to the Group and Company upon consumption of the fuel, within "Aircraft fuel expenses" in Operating Expenses.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

29 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

(a) Market risk (continued)

(i) Fuel price risk (continued)

During the financial year ended 31 December 2014, the Group and Company entered into Singapore Jet Kerosene fixed swap. There were 1,957,597 barrels (2013: 187,778 barrels) of Singapore Jet Kerosene contract outstanding as at 31 December 2014.

As at 31 December 2014, if USD denominated barrel had been USD5 higher/lower with all other variables held constant, the impact on the post-tax profit and equity for the year end equity are tabulated below:

	2014		2013	
	+USD5 RM'000	-USD5 RM'000	+USD5 RM'000	-USD5 RM'000
Impact on post tax profits	34,129	(34,129)	3,084	(3,084)
Impact on other comprehensive income	-	-	-	-

(ii) Interest rate risk

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is that risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates.

In view of the substantial borrowings taken to finance the acquisition of aircraft, the Group's and Company's income and operating cash flows are also influenced by changes in market interest rates. Interest rate exposure arises from the Group's and Company's floating rate borrowings and deposits. Surplus funds are placed with reputable financial institutions at the most favourable interest rate.

The Group manages its cash flow interest rate risk by entering into a cross currency interest rate swap contracts that effectively converts its existing long-term floating rate debt facilities into fixed rate debts. This hedging strategy ensures that the Group is paying a fixed interest expense on its borrowings and that the performance of the Group is not significantly impacted by the fluctuation in interest rates.

The sensitivity analysis below has been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the balance sheet date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period in the case of instruments that have floating rates.

AIRASIA X BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

29 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

(a) Market risk (continued)

(ii) Interest rate risk (continued)

At 31 December 2014, if interest rate on USD denominated borrowings had been 60 basis points higher/lower, the impact on the post-tax profit for the financial year would have been RM3.42 million (2013: RM4.39 million) higher/lower with all other variables held constant.

	2014		2013	
	+60bps RM'000	-60bps RM'000	+60bps RM'000	-60bps RM'000
Impact on post tax profits	(3,423)	3,423	(4,388)	4,388
Impact on other comprehensive income	-	-	-	-

(iii) Foreign currency risk

Apart from Ringgit Malaysia ("RM"), the Group and Company transact business in various foreign currencies including United States Dollar ("USD"), Australian Dollar ("AUD"), EURO, Indian Rupee ("INR"), Chinese Renminbi ("RMB") and Japanese Yen ("JPY"). In addition, the Group and Company have significant borrowings in USD, mainly to finance the purchase of aircraft and pre-delivery payments in respect of the Group's and Company's firm order of Airbus A330-300 aircraft (Note 25). Therefore, the Group and Company are exposed to currency exchange risk. These exposures are managed, to the extent possible, by natural hedges that arise when payments for foreign currency payables are matched against receivables denominated in the same foreign currency, or whenever possible by intragroup arrangements and settlements.

As at 31 December 2014, if RM had weakened/strengthened by 5% against the USD with all other variables held constant, post-tax profit for the financial year would have been RM83 million (2013: RM92 million) lower/higher, mainly as a result of foreign exchange losses/gains on translation of USD denominated receivables and borrowings (term loan and finance lease). The exposure to other foreign currency risk of the Group is not material and hence, sensitivity analysis is not presented.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

29 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

(b) Credit risk

Credit risk is the risk of financial loss to the Group and Company if a customer or a counter party to a financial instrument fails to meet its contractual obligations and arises principally from the Group's and Company's receivables from customers, cash and cash equivalents and financial assets (derivative instruments).

The Group's and Company's exposure to credit risk or the risk of counterparties defaulting arises mainly from various deposits and bank balances, and receivables. As the Group and Company do not hold collateral, the maximum exposure to credit risk is represented by the total carrying amounts of these financial assets in the balance sheet. Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures.

Credit risk relating to receivables is minimised by regular monitoring and, in addition, credit risk is controlled as the majority of the Group's and Company's deposits and bank balances are placed with major financial institutions and reputable parties. The Directors are of the view that the possibility of non-performance by the majority of these financial institutions is remote on the basis of their financial strength and support of their respective governments.

The Group and Company generally have no concentration of credit risk arising from trade receivables, other than as disclosed in Note 21 to the financial statements.

(c) Liquidity and cash flow risk

The Group's and Company's policy on liquidity risk management is to maintain sufficient cash and cash equivalents and to have available funding through adequate amounts of committed credit facilities and credit lines for working capital requirements.

Whilst the Group's and Company's current liabilities exceeded their current assets by RM1,462,163,000 and RM1,464,271,000 (2013: RM762,703,000 and RM764,439,000) respectively as at 31 December 2014, the Directors are of the view that no material uncertainty relating to these conditions exists that may cast significant doubt on the Group's or Company's ability to continue as a going concern. The Directors believe that the Group and Company are able to realise their assets and discharge their liabilities in the normal course of business and that the financial position will be improved through future operating profits and cash flows. In addition, on 27 January 2015, the Company had secured an additional term loan facility amounting to RM75 million for working capital purposes.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

29 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

(d) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including "current and non-current borrowings" as shown in the Group and Company's balance sheets) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the Group and Company's balance sheets plus net debt.

During 2014, the Group's strategy, which was unchanged from 2013. The gearing ratio as at the 31 December 2014 and 2013 were as follows:

	<u>Group</u>		<u>Company</u>	
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>
	RM'000	RM'000	RM'000	RM'000
Total borrowings (Note 25)	1,579,345	1,996,253	1,579,345	1,996,253
Less: Cash and cash equivalents (Note 23)	(74,937)	(212,089)	(74,506)	(211,890)
Net debt	1,504,408	1,784,164	1,504,839	1,784,363
Total equity attributable to equity holders of the Group and Company	703,630	1,236,155	737,862	1,234,921
Total capital	<u>2,208,038</u>	<u>3,020,319</u>	<u>2,242,701</u>	<u>3,019,284</u>
Gearing ratio	<u>68.1%</u>	<u>59.1%</u>	<u>67.1%</u>	<u>59.1%</u>

The Group and the Company are in compliance with all externally imposed capital requirements for the financial years ended 31 December 2014 and 31 December 2013, except that the Group and the Company did not meet certain financial ratio covenants for three borrowing facilities totalling RM173 million as at 31 December 2014. Consequently, borrowing facilities amounting to RM138 million were reclassified as short term borrowings under current liabilities at that date. The remaining RM35 million of borrowing facility was already classified as short term borrowings under current liabilities as it is repayable within a year. The respective lenders had granted indulgences to the Group and the Company from having to comply with the financial covenant ratios for the financial year ended 31 December 2014. As the covenants are enforced annually, the Group monitors compliance with the financial covenant ratios at the end of each financial year. In the event of a breach, the Group will seek indulgences from the respective banks to ensure that the Group and the Company are not in default of any borrowings. The Group's and the Company's overall strategy for capital risk management remains unchanged.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

29 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

(e) Fair value measurement

The carrying amounts of cash and cash equivalents, trade and other current assets, and trade and other current liabilities approximate their respective fair values due to the relatively short-term maturity of these financial instruments. The fair values of other classes of financial assets and liabilities are disclosed in the respective notes to financial statements.

Determination of fair value and fair value hierarchy

The Group's financial instruments are measured in the balance sheet at fair value. Disclosure of fair value measurements are by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2);
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group and Company's assets and liabilities that are measured at fair value.

	<u>Level 1</u> RM'000	<u>Level 2</u> RM'000	<u>Level 3</u> RM'000	<u>Total</u> RM'000

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

29 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

(e) Fair value measurement (continued)

Financial instruments are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted prices is readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an on-going basis. These would include actively traded listed equities and actively exchange-traded derivatives.

Where fair value is determined using unquoted market prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, the Group then determines fair value based upon valuation techniques that use as inputs, market parameters including but not limited to yield curves, volatilities and foreign exchange rates. The majority of valuation techniques employ only observable market data and so reliability of the fair value measurement is high. These would include certain bonds, government bonds, corporate debt securities, repurchase and reverse purchase agreements, loans, credit derivatives, certain issued notes and the Group's over the counter ("OTC") derivatives. The Group's level 2 hedging derivatives comprise fuel swap contracts. Specific valuation technique used to value financial instruments includes:

- The fair value of CCIRS contracts is determined using forward interest rates extracted from observable yield curves and forward exchange rates at the balance sheet date, with the resulting value discounted back to present value;
- The fair value of fuel swap contracts is determined using forward fuel price at the balance sheet date, with the resulting value discounted back to present value.

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). Such inputs are generally determined based on observable inputs of a similar nature, historical observations on the level of the input or other analytical techniques.

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)

31 SEGMENTAL INFORMATION

Management has determined the operating segments based on reports that are reviewed and used to make strategic decisions by the Group's Chief Executive Officer ("CEO") who is identified as the chief operating decision maker.

The Group's CEO considers the business from a geographic perspective. With the termination of certain routes in the previous financial year, the operating segments have been reassessed and identified as North Asia, Australia and Middle East and West Asia.

The operating segments derive their revenues primarily from the Group's activities of provision of long haul air transportation services to these locations.

Consistent with information provided to the chief operating decision maker, revenue and certain direct costs (fuel, oil and maintenance, overhaul and user charges) were extracted on actual earned/incurred basis and disclosed accordingly in the operating segment results for the financial years ended 31 December 2014 and 31 December 2013 respectively. All other costs are allocated to the various segments based on "block hours". Block hours are defined as the time between the departure of an aircraft and its arrival at its destination, as recorded in the aircraft flight log.

AIRASIA X BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2014 (CONTINUED)**31 SEGMENTAL INFORMATION (CONTINUED)**Note:

- EBITDAR - Earnings before interest, taxes, depreciation, amortisation and restructuring or rent costs
 EBITDA - Earnings before interest, taxes, depreciation and amortisation
 EBIT - Earnings before interest and taxes

All material non-current assets are based in Malaysia at the end of the current and previous financial year end.

The Group has not disclosed information relating to revenue from external customers which are attributed to the country of domicile and which are attributable to all foreign countries in total from which the Group derives revenue. Due to the nature of activities in the Group, the necessary information is not available and the cost to develop it would be excessive.

32 UNCONSOLIDATED STRUCTURED ENTITIES

The Company has set up Merah X entities, special purpose companies ("SPC") pursuant to aircraft related borrowings obtained from various financial institutions. Under the arrangement, the Company enters into an Aircraft Instalment Sale Agreement with the SPC, permitting the company to possess and operate each of the Airbus A330-300 aircraft financed under the facility.

The SPC are orphan trust companies in which the Company has no equity interest.

The details of the Merah X entities are as follows:

<u>Name</u>	<u>Country of incorporation</u>	<u>Purpose</u>
Merah X Satu Limited	Malaysia	Purchase of 2 Airbus A330-300 aircraft
Merah X Dua Limited	Malaysia	Purchase of 3 Airbus A330-300 aircraft
Merah X Tiga Limited	Malaysia	Purchase of 2 Airbus A330-343 aircraft
Merah X Empat Limited	Malaysia	Purchase of 1 Airbus A330-300 aircraft
Merah X Lima Limited	Malaysia	Purchase of 1 Airbus A330-300 aircraft
Merah X Enam Limited	Malaysia	Purchase of 2 Airbus A330-300 aircraft

The SPC do not incur any losses or earn any income during the financial year ended 31 December 2014. The aircraft and the corresponding term loans and finance costs associated with the SPC have been recognised by the Group and Company upon the purchase of the aircraft.

The Group and the Company does not provide any financial support to the SPC or have any contractual obligation to make good the losses, if any.

**STATEMENT BY DIRECTORS PURSUANT TO
SECTION 169(15) OF THE COMPANIES ACT, 1965**

We, Tan Sri Rafidah Aziz and Datuk Kamarudin Bin Meranun, being two of the Directors of AirAsia X Berhad, state that, in the opinion of the Directors, the financial statements set out on pages 6 to 99 are drawn up so as to give a true and fair view of the state of affairs of the Group and Company as at 31 December 2014 and of the results and the cash flows of the Group and Company for the financial year ended on that date in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the provisions of the Companies Act, 1965.

The information set out in Note 35 to the financial statements has been prepared in accordance with the Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants.

In accordance with a resolution of the Board of Directors dated 29 APR 2015

TAN SRI RAFIDAH AZIZ
DIRECTOR

DATUK KAMARUDIN BIN MERANUN
DIRECTOR

**STATUTORY DECLARATION PURSUANT TO
SECTION 169(16) OF THE COMPANIES ACT, 1965**

I, Datuk Kamarudin Bin Meranun, the Director primarily responsible for the financial management of AirAsia X Berhad, do solemnly and sincerely declare that the financial statements set out on pages 6 to 99 are, in my opinion, correct and I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of the Statutory Declarations Act, 1960.

DATUK KAMARUDIN BIN MERANUN

Subscribed and solemnly declared by the above named Datuk Kamarudin Bin Meranun at Kuala Lumpur in Malaysia on

29 APR 2015

, before me.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF AIRASIA X BERHAD
(Incorporated in Malaysia)
(Company No. 734161 K)

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of AirAsia X Berhad on pages 6 to 99 which comprise the balance sheets as at 31 December 2014 of the Group and of the Company, the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on Notes 1 to 34.

Directors' Responsibility for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The directors are also responsible for such internal control as the directors determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF AIRASIA X BERHAD (CONTINUED)

REPORT ON THE FINANCIAL STATEMENTS (CONTINUED)

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as of 31 December 2014 and of their financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the financial statements and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 16 to the financial statements.
- (c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- (d) The audit reports on the financial statements of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act.

OTHER REPORTING RESPONSIBILITIES

The supplementary information set out in Note 35 on page 100 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.
