#### NOTES TO THE UNAUDITED ACCOUNTS - 31 DECEMBER 2018

#### 1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with Malaysian Financial Reporting Standard ("MFRS") 134: "Interim Financial Reporting" and paragraph 9.22 and Appendix 9B of the Bursa Malaysia Securities Berhad ("Bursa Malaysia") Listing Requirements.

The interim financial statements should be read in conjunction with the audited consolidated financial statements for the financial year ended 31 December 2017.

#### 2. Summary of significant accounting policies

The accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted for the audited consolidated financial statements of the Group for the financial year ended 31 December 2017.

Details of standards, amendments to published standards and interpretations to existing standards that are applicable to the Group with effect from 1 January 2018 or later are provided in the notes to the financial statements in the audited financial statements of the Group for the financial year ended 31 December 2017. The changes in accounting policies are also expected to be reflected in the Group's consolidated financial statements as at and for the year ended 31 December 2018. The Group has adopted MFRS 15 "Revenue from Contracts with Customers" and MFRS 9 "Financial Instruments" from 1 January 2018. Other new standards with effective date from 1 January 2018 do not have material effect on the Group's financial statements. The Group did not early adopt any new standards, amendments to published standards and interpretation to existing standards. The changes arising from the adoption of new standards are as described below:

# (Company No. 734161-K)

(Incorporated in Malaysia with limited liability under the Companies Act, 1965) FOURTH OUARTER REPORT ENDED 31 DECEMBER 2018

## NOTES TO THE UNAUDITED ACCOUNTS - 31 DECEMBER 2018

(a) Adoption of MFRS 15 "Revenue" from Contracts with Customers

MFRS 15 "Revenue from Contracts with Customers" replaces the guidance in MFRS 111 "Construction Contracts", MFRS 118 "Revenue", IC Interpretation 13 "Customer Loyalty Programmes", IC Interpretation 15 "Agreements for Construction of Real Estate", IC Interpretation 18 "Transfers of Assets from Customers" and IC Interpretation 131 "Revenue - Barter Transactions Involving Advertising Services". MFRS 15 provides a single model for accounting for revenue arising from contracts with customers, focusing on the identification and satisfaction of performance obligation. The standard specifies that the revenue is to be recognised when control over the goods or services is transferred to customer, moving from the transfer of risk and rewards.

Effects arising from the initial application of MFRS 15 are as follows:-

	Impact of adoption of MFRS 15 to opening balance at 1 January 2018
	RM'000
Sales in Advance	(18,246)
Deferred tax assets	4,379
Retained Earnings	13,867

(b) Adoption of MFRS 9 "Financial Instruments"

MFRS 9 "Financial Instruments" replaces the guidance in MFRS 139 "Financial Instruments: Recognition and Measurement" for annual periods beginning on or after 1 January 2018. Retrospective application is required, but comparative information is not compulsory. The new requirements introduced for all three aspects of the accounting for financial instruments are as follows:-

i) classification and measurement;

MFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income ("FVOCI") and fair value through profit or loss ("FVTPL"). The standard eliminates the existing MFRS 139 categories of held to maturity, loans and receivables and available for sale.

#### Impact as a result of MFRS 9 adoption

The Group does not expect a significant impact on its balance sheet or equity on applying and measurement of MFRS 9. It expects to continue measuring at fair value all financial assets currently held at fair value.

Loans and receivables are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. The Group analysed the contractual cash flow characteristics of those instruments and concluded that they meet the criteria for amortised cost measurement under MFRS 9. Therefore, reclassification for these instruments are not required.

ii) impairment; and

The adoption of MFRS 9 has fundamentally changed the Group's accounting for impairment losses for financial assets by replacing MFRS 139's incurred loss approach with a forward-looking expected credit loss (ECL) approach. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the asset's orginal effective interest rate. The Group does not have other financial assets other than trade and other receivables, for which the Group has applied the standard's simplified approach and calculated ECLs based on lifetime expected credit losses. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for foward-looking factors specific to the debtors and the economic environment in which the business is operating in. The impact upon application of the new impairment model was not material in relation to the opening balance of the Group as at 1 January 2018.

#### Impact as a result of MFRS 9 adoption

Effects arising from the initial application of MFRS 9 with the new impairment model are as follows:-

	Impact of adoption of MFRS 9 to opening balance at 1 January 2018
<b>T</b> 1 101 <b>D</b> 111	<b>RM'000</b>
Trade and Other Receivables Deferred Tax Assets	(1,410) 338
Retained Earnings	1,072

iii) Hedge accounting

The Group has decided to continue applying hedge accounting as set out in MFRS 139 to all hedges until the project on accounting for macro hedging is completed by International Accounting Standards Board (IASB).

#### AIRASIA X BERHAD (Company No. 734161-K)

(Incorporated in Malaysia with limited liability under the Companies Act, 1965) FOURTH OUARTER REPORT ENDED 31 DECEMBER 2018

#### NOTES TO THE UNAUDITED ACCOUNTS - 31 DECEMBER 2018

#### (c) Adoption of MFRS 16 "Leases"

MFRS 16 Leases is relevant to the Group and becomes effective for financial periods beginning on or after 1 January 2019. The standard eliminates the lessee's classification of leases as either operating leases or finance leases and, instead, introduces a single lease accounting model. Applying that model, a lessee is required to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value, and depreciation of lease assets separately from interest on lease liabilities in the statement of profit or loss. MFRS 16 will primarily affect the Group's accounting as a lessee of leases for aircraft and related equipment, and buildings and other equipment which are currently classified as operating leases. The application of the new accounting model is expected to lead to a material increase in both assets and liabilities and to impact on the timing of the expense recognition in the statement of profit or loss over the period of the lease. The Group has completed an initial assessment of the implications of adopting this standard, however, will need to perform a further analysis to determine the amounts of new assets and liabilities arising from operating lease commitments on adoption of MFRS 16.

#### 3. Auditors' report on preceding annual financial statements

The auditors have expressed an unqualified opinion on the audited Group's statutory financial statements for the financial year ended 31 December 2017 in their report dated 27 March 2018.

#### 4. Seasonality of operations

AirAsia X is primarily involved in the provision of air transportation services and thus, is subject to seasonal demand for air travel. Passengers carried recorded in the fourth quarter of the year declined by 3% year-on-year ("YoY") at 1,498,618 passengers while Passenger Load Factor ("PLF") stood lower at 78%. This was primarily due to additional capacity being deployed in the network and the introduction of new routes during the current quarter.

#### 5. Unusual items due to their nature, size or incidence

There were no unusual items affecting assets, liabilities, equity, net income or cash flows during the current quarter and financial year.

#### 6. Changes in estimates

There were no changes in estimates that have had material effect on the results of current quarter and financial year.

#### 7. Capital and reserves

There was no issuance of shares during the current quarter. Total issued and paid up share capital as at 31 December 2018 is 1,534,043,217 (31 December 2017: RM1,534,043,045).

#### 8. Dividend paid

No dividends were declared, approved or paid for the financial year ended 31 December 2018.

#### NOTES TO THE UNAUDITED ACCOUNTS - 31 DECEMBER 2018

#### 9. Segment reporting

Operating segments are reported in a manner consistent with the internal management reporting provided to the chief operating decision maker, which is the Group's Chief Executive Officer ("GCEO"). The GCEO considers the business from a geographical perspective. The operating segments have been identified by each Air Operator Certificate ("AOC") held under the AirAsia brand, and are categorised as Malaysia, Thailand and Indonesia.

The GCEO assesses the performance of the operating segments based on revenue and net operating profit.

Reconciliation to the reportable segments relates to the elimination of the associate and joint venture companies.

The segment information provided to the GCEO for the reportable segments are as follows:
